

Silicon Valley homes & investments nationwide
A unique "whole-istic" approach to real estate ownership

2021 Annual Real Estate Report

Santa Clara County Real Estate Trends Report

Sales & Prices Rose in 2021

After a slow 2019, the real estate market in Santa Clara County has risen the past two years. Prices for single-family, re-sale homes set new highs in 2021.

The median sales price for single-family, re-sale homes was \$1,626,000 for the year, a gain of 17.8%. It was \$1,380,000 in 2020. The average sales price gained 18.9%.

Home sales were up 21.2% from the year before.

Home inventory was down 38.1% year-over-year. Nevertheless, it was pretty anemic. There were an average of 561 homes listed for sale each month in 2021. The average from 2000 through 2020

is 2,637. Lack of inventory propped prices up.

The sales price to list price ratio closed the year at 111.7%.

The median sales price for re-sale condominiums rose 10.9% last year to \$899,000. The average price gained 9.9% to \$975,099.

Condo sales were up 47.5% from 2020.

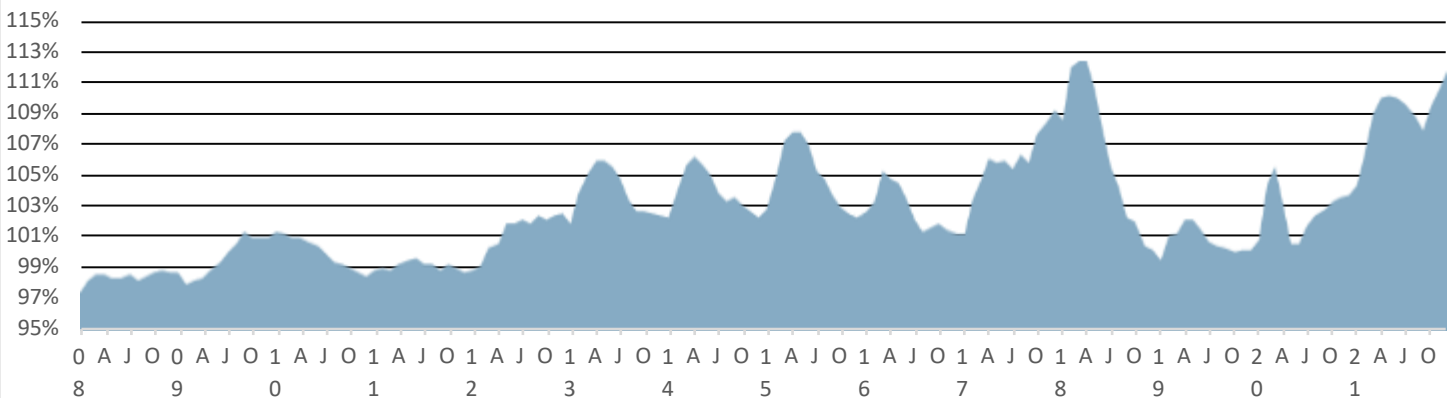

Condo inventory was down year-over-year. There were an average of 343 condos listed for sale each month. The average from 2003 to 2020 is 833.

The market, while still favoring sellers, will be constrained by low inventory.

For assistance in this market, do not hesitate to contact me. If you are thinking of selling, I can provide a free comparative market analysis. Also, if you go to my on-line report and click on Recent Sales & Listings, you will see what has sold, what is for sale and what is pending in your neighborhood.
